

Stand Up the Weekly Family Meeting

A standing 20-minute huddle — agenda built before you sit down.

The home runs on rhythm, not crisis. Put a weekly family meeting on the calendar and let AI draft the agenda from the week, so you lead the table instead of improvising it.

Action checklist

- Create a recurring weekly Calendar event — 20 minutes, same time, whole crew.
- Save a Claude prompt that drafts the agenda: wins · what's ahead · one decision · one prayer.
- Run the first meeting this week. Keep it short. End on the prayer.
- Track 'Family Meeting held' as a weekly Habitify habit — the streak is the accountability.

LEAD THE TABLE

AI builds the agenda; you build the men and women at the table. The tool never sits at the head.

Scripture sit

Joshua 24:15 — "As for me and my house, we will serve the LORD." A house with no meeting drifts.
