

Run the Monthly Family Survey

A recurring pulse-check on the people you're leading.

You measure what you lead. Once a month, ask the crew how the home is really doing — the same few questions — and let AI surface the pattern. A captain who asks is one who hears the matter before he answers.

Action checklist

- Build 4–5 survey questions with Claude (How's home? What's hard? What do you need from Dad?).
- Set a recurring monthly trigger — same day each month (Calendar event or a Habitify habit).
- Collect answers — written or verbal. Paste them into Claude: "What's the one thing my family is telling me?"
- Act on the one thing before the next survey.

MONTHLY, NOT NEVER

The survey only works on a rhythm. Set it to recur now — the month you 'remember to' is the month you won't.

Scripture sit

Proverbs 18:13 — "He who answers a matter before he hears it, it is folly." The survey is how you hear.
