

Save Your 3 Best Prompts as Skills

Captains don't rewrite prompts every Monday.

The third Week 4 task: capture your prompts so you can repeat them. The captain who builds his playbook leads longer.

Action checklist

- Pick the 3 prompts you actually use (not the ones you wish you used).
- Save them as named skills:
 - Claude → Skills feature in Cowork
 - ChatGPT → Custom GPTs or saved messages
 - Or simplest: a prompts.md file in your second-brain
- Name them like a captain — clear, terse, useful ("morning_anchor", "sermon_prep_v1", "hard_email_draft").
- Post one prompt in the bootcamp comments.

Scripture sit

Proverbs 22:29 — The man skilled in his work shall stand before kings. Save your skill so you can repeat it.
