

Automate Your Subscription Review

A standing monthly sweep on the slow leaks.

The slowest leak is the subscription you forgot three years ago. Don't audit once — automate the sweep. A standing monthly review keeps the storehouse honest without willpower.

Action checklist

- List every recurring charge once — bank/card statements, plus Apple and Google subscriptions.
- Set a recurring monthly trigger (Calendar event, or a 'Subscription sweep' Habitify habit).
- Each month, paste the list into Claude (names + amounts only, no card numbers): "Which did I not use? Cut one."
- Cancel one dead charge. Screenshot the confirmation. Post one in the channel.

PLUG ONE LEAK A MONTH

You don't have to fix the whole budget. Cut one dead subscription each month and the storehouse heals itself.

Scripture sit

Luke 16:10 — "He who is faithful in a very little is faithful also in much." Storehouse discipline is little — and it's much.
